About This Game

Ninja Guy, the humorous and quirky ninja action game has now come to Steam! This version includes all new exclusive improvements such as refined gameplay, graphical post effects and Steam Achievements!

Ninja Guy has generated somewhat of a cult following on mobile and has amassed over 70,000 Ninja Guy fans on Facebook!

Now, the Ninjaverse has never looked as awesome with realtime dynamic lights and shadows, gorgeous screen effects, more than twice the amount of enemies on screen and totally revamped gameplay to allow for super fun action using the Joypad or the Keyboard / Mouse!

From a peaceful training village to a hell-like demon world, you control Ninja Guy! You will guide him on his bizarre and epic quest to prove himself to the Holy Cow Sensei by bringing down an evil gargantuan Minotaur! You are Cow Sensei's last hope, and final student .. Will you finally attain your Ninjaness?

Ninja Guy will have you laughing along to his almost never-ending supply of dim-witted Ninja catchphrases, such as the classic "2 + 2 = NINZAAA!" Remember... Gun's don't kill people, Ninja Do!

Fun game. Good graphics. Wish there were more tracks and more online presence would good.. Space Grunts has excellent balance and progression. Every couple levels the challenge is slightly amped up with options of alternate routes, weapon upgrades and newer smarter enemies. Also has a leader board, daily challenges and many secrets to discover. Having a lot of fun playing Space Grunts :). controls were too spread out, confusing, and hard to get down. Very fun game to play!!!. better than witcher and elder scrolls combined. Nice big hitboxes and easy to play

This is by far the worst game I have ever played. :/

It is a side scrolling game that has SO MANY limitations!

****Don't Buy this game.**** It's a total waste of money.. Whenever the question "What are the best VN's?" pops up, Umineko is sure to be mentioned.

And after having played it, I can confirm that this is indeed not a wrong assessment!

Technically speaking, this is something called a "sound novel". There are no choices or branching paths or anything. It's essentially a book with graphics and awesome (it's really super good) music, you only read.

It's also seriously long. Depending on your reading speed, this will probably take 40-80 hours. And it's only part 1! Part 2, covering the second half of the story is also on Steam, and will take around the same length. Phew.

I definitely think the length is daunting and there are issues with the pacing at times, but at the same time it's also really worth it. The story is really good.

I don't really want to say much about the story, I think it's best experienced blind, but it's essentially a murder mystery. Given its length there is definitely much more going on though :P

There's a mod that adds the voice acting and (optionally) the sprites from the PS3 version. Very recommended, the performances are amazing and add a lot.. Whoa, this game is horrible. This is just slightly better than its prequel. Controls are still ♥♥♥♥ed up, voice acting is still terrible, graphics are irrelevant for this kind of game, but it still bugs me how bad this game was made overall. Bad programming at its best.

I had to force myself through this game, through this torture, just for the sake of the plot which wasn't even that good. Holmes conclusion is the only good moment in this game. They even ♥♥♥♥ed up the cinematics.. Great game, if you like to explore, craft and fight. Lots of fun, but I keep losing time when I try to play. Sit down for 20 minutes and next thing I know it has been hours. The devs do watch the forum and quickly work on fixes and features.. I just played Turba for 15 minutes, to get the Summer achievement that was added to it.

Afterward when I got up from my chair, I stubbed my toe very hard, fell and bashed my arm on a bookcase as I tried to catch my fall, scraped my leg rather painfully, and finally broke my fall by smashing my hand against the sharp corner of a wooden box. My arm hurts, my leg hurts, my hand hurts, and my toe is bleeding a bit. I also seem to have punched myself in the stomach or something on the way down, I'm not even sure on that, but it hurts there too.

Still, if I had no choice but to repeat one of those two experiences, I would not choose Turba.. Not worth of playing:

- no hidden objects
- puzzles are extremely easy, you don't even think how to resolve it
- history is not interesting
- very short 2,5 hours of gameplay

There is one innovative element and these are the arcade mini-games
