Tougher than its cute look would lead you to believe. Amusing. I'm not a fan of having to replay the first half of the game to see both the spellcaster and beastmaster mid/end games, but it goes by pretty quickly once you know what you're doing.. Game made by these UK folks <https://chequered.ink/>

[In a nutshell a rage quit game offering 25 levels each of which need to be passed two times. First by collecting 5 sticks dispersed on each level and secondly by acquiring the trophy time as dictated by the developers. These time requirements need the finger agility of an octopus and the reflex speed of a cheetah, with hardly any room for error.](#)

[While I enjoyed the game at first and found many of the levels challenging but achievable after a limited amount of retries, as I climbed the achievement ladder however, I quickly discovered that a handful were just trolling, seemed unfair and nearly impossible to beat. These levels just seemed to take the challenging aspect of the game too far and many have stated that they too began to have a disdainful experience with the game.](#)

[Why developers continue to invent levels with unbalanced difficulty is beyond me. It NEVER endears casual gamers to your product or to future buys with your company. It's basically just you forking out money so some egotistical developer can claim that he is smarter and better than you. Steam really needs to put massive stickers on games labelling them 'CAUSAL' or 'HARDCORE'. Maybe even have a difficulty rating so that we can determine before buy, how hard the game is.](#)

[It's match-3, but what makes it fun is that if you're good and lucky you can beat ships 5+ levels above you.](#)

[The quests are limitless, but the quests get old fast. It was addictive for the 8 hours or so I played it \(most in Beta\). Get it on a sale.](#)

[.AAAAHHHHHHHHHHHHHHHHHHHHH THEEEEEEEEEEEEEEE](#)

[NOSTALGIAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA. Very fun and solid game for its price. The camera here is much more convenient and in every aspect is better than in GTA V.](#)

Yeah, you know what time it is?
It's time for an other rock'n'roll song!
Kick it!

I park my car next to the club
Tonight a rockshow will come up
In front of the door I can see some ♥♥♥♥♥es waiting
And I think to myself
Tonight I'll get one
Babes are not secured

Tonight is the night where I will get one
And than I met you
She's a rock'n'roll lady
That turns me on, maybe
You turn me on lady
That's rock'n'roll
She's a rock'n'roll lady
That turns me on, maybe
You turn me on lady
That's rock'n'roll

Entering the club makes me tall like a tower
And I check out the crowd every minute every hour
And all the chicks around me getting down an their knees
Cause, image is the only thing you need and the only thing you need is me

Tonight is the night where I will get one
Please shake your hip for me ones more
And I can feel you

Step one
You're coming, over I don't know what to do
Step two
You make me nervous, I'm addicted to you
Step Three
Against your weapons I can't win!
You're my
Mrs Rock'n'roll

Step one
You're coming, over I don't know what to do
Step two
You make me nervous, I'm addicted to you
Step Three

I checked out all the girls
They did not fit
But then I saw her and I have to admit

That I lost control
Please shake your hips for me once more
Than I can feel you

Step one
You're coming, over I don't know what to do

Step two
You make me nervous, I'm addicted to you

That turns me on!! for an early access i find it to be in good shape. the closest i would draw it would be to wasteland 2. its turn base combat is solid if a little on the clunky side (running on a laptop so it may be entirely different on a desktop). but all in all fun.. You are a very small bunny running around, with not a set goal it seems, your only choice is to explore!. dont waste your money even though its only 29 cents. dumbass game.. Amazing game, the gameplay is superb and a dream for anyone that looks for a real tennis simulation.. It's defenitly a good start for a series... and I hope it is planned as such since the ending is very abrupt and leaves several issues unsolved. Nice to read though. The choices you can make feel reasonable and are representing an adequate variety of different options.
